

Inside the barriers: *in vitro* models and their applications

Day 3: March 4th - Modelling the gastro-intestinal barrier

9.45 - 10.00	Access to the platform
10.00 - 10.10	Welcome and introduction (Chair: Olimpia Vincentini/ Nathalie Steimberg)
10.15 - 10.40	<i>Intestinal barriers: from 3D epithelial models to intestinal spheroids</i> Prof.ssa Francesca Rescigno, VitroScreen Srl, Italy.
10.45-11.10	<i>2D/3D intestinal biomimetic tissue models combined to microphysiological systems for in vitro absorption studies</i> Dr Silvia Scaglione, React4life Srl, Italy
11.10-11.20	Coffe break
11.20-11.35	<i>A fluidic platform to implement advanced in-vitro models of pathophysiological intestinal barriers</i> Dr.ssa Simona Scorza, University of Bari, Italy
11.35-11.45	<i>IVTech: new tools for advanced in-vitro models</i> Dr Tommaso Sbrana, IVTech Srl, Italy
11.45-12.10	<i>In vitro model of human intestinal epithelium for studying drug toxicity and pharmacokinetics</i> Dr Jan Markus, MatTek IVLSL, Slovakia
12.15 – 12.45	Discussion and Conclusions

Scientific organising committee

Diego Baderna (Chemservice Srl), Susanna Alloisio (ETT Spa), Olimpia Vincentini (Istituto Superiore di Sanità),
Nathalie Steimberg (Università degli Studi di Brescia), Francesca Caloni (Università degli Studi di Milano)

Webinars with free participation, upon registration at eventi.celltox@gmail.com
